## Ethics Policy

### Introduction

Cameron Furnace Company has a number of fundamental principles and values which it believes are important to uphold. Trust and respect from employees, customers, shareholders, opinion formers, other stakeholders and the general public - are assets that cannot be bought and are the foundation of our success. This is why business at Cameron Furnace Company must be conducted in adherence with these principles and values. The impact of wrongdoings and unethical behaviour upon the Company could be substantial.

Every employee has a right to expect that Cameron Furnace Company maintains proper standards and everyone has a duty to maintain these standards through their decisions, actions and what they say. A heavier responsibility is borne by those who hold positions of authority. They must openly demonstrate leadership in applying the business practices outlined in this policy.

This Ethics Policy is supported by the Managing Director of Cameron Furnace Company and shall be reviewed from time to time. The policy covers the main issues that may be encountered at work, and sets out standards of professionalism and integrity to be maintained by individuals in all the Company's operations.

All employees have the right and the responsibility to resolve doubts or uncertainties about ethical questions and should in the first instance contact their immediate supervisor for guidance prior to taking any action. An 'open door' policy is encouraged in order that, if necessary, such queries can be brought to the attention of higher levels of management.

### Business Principles

An ethics policy cannot cover every circumstance where an employee may need to consider his / her conduct. If any employee is in doubt regarding *any* ethical matter, they should first seek advice from their immediate manager or supervisor.

Cameron Furnace Company has developed and uses an extensive suite of policies to manage its obligations. All employees are made aware of these via Tool Box Talks, training and training materials, through Performance and Development Review, and through internal awareness-raising campaigns.
